

CENTER FOR MEDICAL AND MEDICAID SERVICES

HEALTH CARE CHARGES ANALYSIS

On [July 30, 1965](#), President B. Johnson signed the legislation that established the Medicare and Medicaid programmes into law. These initiatives have improved the economic security for [50 years](#) while safeguarding the health and welfare of millions of American families. Today, Medicaid give medical insurance to low-income families, pregnant women, people who need long-term care, people of all ages with disabilities. Meanwhile, there is a vast range of services provided across all [50 states](#) as well as capital district (Washington, D.C) and states can customise their Medicaid programmes to best serve the residents of their state.
